HOW TO BUY AMMO AT CALIFORNIA GUN SHOWS

- **California Real ID.** Driver's Licenses that have a silhouette of a bear with a star in the upper righthand corner indicate that it **IS** a California **REAL ID**.
  If there is no bear or star and it says "Federal Limits Apply" is in **NOT** a California **REAL ID** and you will need to bring a second form of **ID** such as your birth certificate or passport.
- The information on your **REAL ID** must match **EXACTLY** what the DOJ has on file for you in your CFARS (California Firearms Application Reporting System) account. Go to www.cfars.doj.ca.gov to check and/or update your CFARS account.
  If you have purchased a gun in California in the last 10 years you have a CFARS account.
  If you have ever purchased a gun in California, you can get a CFARS account by logging onto their website.
- If you have purchased a firearm in the last few years you can log into cfars.doj.ca.gov to check the information and address on your account.

If you have never purchased a gun in California it is recommended that you do one of the following.

1. Purchase a firearm. Purchase of any firearm will automatically put you in the system and create a CFARS account for you.
2. Get a COE (Certificate of Eligibility). A COE costs $22 and will give you a one-year background clearance to buy ammo. Go to www.oag.ca.gov the type COE into their search option to find requirements and apply of a COE.

If you have any questions about ammo purchase, the ammo dealers at the shows are very knowledgeable and helpful.
